During congestion, heavy data users (>35GB/mo. for most plans) and customers choosing lower-prioritized plans may notice lower speeds & Metro customers may notice lower speeds vs. T-Mobile, due to data prioritization. Video streams at up to 2.5 Mbps (SD).

Unlimited talk & text features for direct communications between 2 people: others (e.g., conference & chat lines, etc.) may cost extra. Unlimited high-speed data U.S. only. Rates, services and features subject to change. Not all services available on all phones. Taxes are included. Fees include regulatory fees only and exclude non-recurring customer fees. Coverage and services not available everywhere. **Music Unlimited:** Licensed music streaming from included services does not count towards high speed data allotment on Metro network. Song downloads, video content, and non-audio content excluded. **Music:** streamed using Mobile Hotspot tethering may count toward high-speed allotment. For included services, see list at www.metrobyt-mobile.com/musicunlimited.
 *Wi-Fi Calling on select phones only.
 **High-Speed data available up to monthly data allotment; then speeds slowed to average Metro network speeds for remainder of billing cycle. Unlimited is on network and device only. All data usage by you on Metro network counts toward your monthly data allotment, but Wi-Fi usage does not count toward your monthly data allotment. Use of some content, features, or services may incur separate, additional charges and/or require a qualifying data plan or access to Wi-Fi connection. Voice line required. Hotspot data only available on Metro by T-Mobile network. See metrobyt-mobile.com for Terms and Conditions of Service (including arbitration provision) and more details.
 ***During congestion, Home Internet for Metro & Internet Lite for Metro customers may notice speeds lower than other customers due to data prioritization. For Lite customers, full speeds available up to data allotment, then limited at up to 128Kbps. For use only with T-Mobile Gateway on T-Mobile's nationwide 5G and 4G LTE network where available; no roaming. **Gateway sold separately:** cannot be unlocked for use on other networks. **Video:** streaming resolution depends on available speeds. For best performance, leave video streaming applications at their default resolution setting. Not compatible with some live TV streaming services.
 † Once hotspot data exhausted, no further hotspot access available. ††† Send and receive unlimited text messages to any country in the world where texting is available (except Cuba or Wallis & Futuna) while on our network.
